Yes, the Game is Up.

The political situation in the Sunshine Territory is properly and timely portrayed in the following editorial item by the Deming Graphic, which paper evidently knows whereof it speaks. The Graphic holds:

"The Albuquerque Journal is tearing its hair over the removal of Trelford as it did over the kind message that Hagerman received to quit. In both cases there were good reasons for action. Hagerman, it was proven, was incompetent, and Trelford has been shown up as a man of brutal, cruel instincts, as unfit for the position of superintendent of the penitentiary as a Fiji Islander. The removal of these two gentlemen has been an uplifting step toward cleaner and better government in New Mexico, and as a result the inconsistency of the Journal with its great battle cry of down with the grafters and hoodlars is highly amusing to say the least.

"What reform is being brought about in the Republican party today is being done by the true and tried leaders, who are honestly and fairly trying to get the Republican party in New Mexico back on the firm footing and in the honorable position it enjoyed before its disruption by poor misguided Herbert.

"Probably the Journal realizes

the game is up and its wailings and gnashing of teeth are but the signal that it can't hold the Bureau of Immigration job more than a fortnight longer."—New Mexican.

We are sorry to learn that J. R. Moore, the lumberman, is on the sick list. His rapid recovery is sincerely hoped for.

A car load of cement was derailed Thursday morning on the switch where the Dawson yards connect with the main yards. The wheels of the car were buried deep in the ground and the car was pretty well battered up, a number of ties were torn up and it was several hours before the way was cleared between the two yards.

Don't forget to visit the Racket Store when in search of July bargains.
